F. Vehicle Towing	Provide for free flow of traffic and cleaner environment through the removal of abandoned vehicles from the City streets and removal of vehicles creating a hazard on City streets, expressways, and alleys. Improve the flow of traffic in the Loop area by removing illegally-parked vehicles. Cooperating with law enforcement agencies by towing vehicles which have been involved in hit and run accidents, stolen, or used in a felony.	In cooperation with the Police Department, approximately 50,000 abandoned vehicles will be towed from the City streets to one of seven Police Department auto pounds. In addition, approximately 40,000 vehicles classified as immediate hazards will be towed.	$ 2,730,328
G. Bicycle Routes	Provide a safe and functional system of bike paths, on-street bike routes, and special purpose bike lanes, to serve the rapidly growing number of recreational and commuter bicyclists.	It is estimated that approximately 1,000 bike route signs will be posted as part of the maintenance and expansion of our bike route system. In addition, a Sunday-only Central Chicago exclusive bike lane will be implemented along a six-mile route.	30,280
II. Accident Prevention and Safety			
A. Accident Prevention at Hazardous Locations	Identify and analyze hazardous locations, and recommend changes which will reduce the accident hazard.	Using available statistical information to identify and analyze high-accident locations and areas, and prepare recommendations for reducing the accident rate.	149,940
B. Signal and Intersection Improvements	Review traffic operation and accident history at intersections, and implement recommendations which will facilitate traffic flow and/or improve safety for vehicles and pedestrians.	The increase in traffic volumes and accidents necessitates a review of intersection operation wherever problems develop. The scope of these studies ranges from redesign of signal operation or new equipment, to installation of traffic signals, traffic control signs, or advance warning signs. About 1,900 work orders are prepared yearly as a result of 3,720 surveys.	1,167,826
C. Emergency Traffic Control	Promote pedestrian and motorist safety through the placement of warning devices at temporarily dangerous areas of the motorist and pedestrian way.	A twenty-four hour a day, seven day a week operation which places traffic control warning devices at dangerous locations, such as street and sidewalk cave-ins, fires, holes in the streets, building demolitions, etc. Each year we respond to approximately 25,000 situations of this nature.	701,880
III. General Support	Bureau administration not identifiable with any specific program element.		$ 434,457

BUREAU OF FORESTRY, PARKWAYS AND BEAUTIFICATION

1975 Operations Plan—Summary

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
I. Beautification			
A. Public Ways	The planting of select shade trees on public ways to beautify and improve the appearance of the City's urban forest. The planting of ornamental shrubs and flowers and the performance of other landscaping functions to beautify public ways.	The Bureau plans to plant 30,000 trees in public ways during 1975. Species to be planted will be selected on the basis of minimizing maintenance costs as well as aesthetic considerations. Landscape shrubs and 100 flower beds consisting of 220,000 flowers will be planted in 1975.	$826,313
B. City-owned Facilities and Offices	Initial landscaping of City-owned facilities for beautification purposes. Providing plants for City offices. Planting trees around City buildings and facilities and providing flower boxes around public buildings.	The Bureau plans to provide landscaping services to Bureau of Sanitation facilities. The Bureau will place 40 potted trees and 650 window flower boxes around City Hall, the Chicago Public Library and various Police and Fire Department facilities.	117,161
C. Special Events and Community Projects	Providing forestry and horticultural services in connection with public shows, displays and other events, as well as community beautification projects.	The Bureau will participate in the production of parades, flower shows, civic displays and several neighborhood projects.	44,513
D. Operation of Nursery	To provide a source of street shade trees for planting in the Bureau's beautification program.	The nursery will provide 5,000 trees for planting in public ways, 25,000 trees will be cultivated and maintained and 15,000 youngliners will be planted for future development and transplantation.	257,849
E. Operation of Greenhouse	To provide a source of plants and seasonal flowers for beautification.	The greenhouse will grow all plants and flowers to be used in the Bureau's 1975 beautification activities.	175,516
II. Removal of Dead, Diseased, Dangerous and Undesirable Trees			
A. Public Ways	Removal of trees to prevent hazardous conditions, to reduce the spread of tree diseases and trees determined to be undesirable because of species, form, location or condition.	Although there are an estimated 100,000 trees in public ways that should be removed to upgrade quality and reduce future maintenance requirements, operations will concentrate on removing hazardous trees and preventing the spread of Dutch Elm Disease.	
1. Removal Above Ground	Topping, felling, cutting and stacking trees, and hauling away for disposal.	Bureau estimates that 25,000 trees in public ways will require removal during 1975 to alleviate immediate hazard or prevent the spread of Dutch Elm Disease.	2,529,759

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
2. Stump Removal	Physical removal of remaining tree parts to a level of 6" to 8" below ground level and pick up of resultant debris.	The number of stumps to be removed will be equal to the number of trees removed.	$ 417,031
B. Other Areas	Removal of trees to prevent hazardous conditions and to reduce the spread of tree diseases.	The Bureau may be called upon to remove dead, diseased or dangerous trees from City-owned facilities or other areas. Because this activity is responsive in nature, it is difficult to estimate the amount of Bureau resources that will be required. The cost of this kind of work is usually reimbursable to the Forestry Fund.	.....
III. Maintenance of Trees and Landscapes			
A. Public Ways			
1. Tree Trimming	Selective removal of portions of a live tree for the benefit of the remainder of the tree or to eliminate a dangerous or undesirable condition.	The Bureau plans to trim 100,000 trees in 1975. This is done in conjunction with long-range plans of the Bureau to trim each tree once every 5-7 years. Trimming required as a result of hazardous situations is included in the emergency response category and is not accounted for here.	1,437,919
2. Landscape Maintenance	The performance of a broad range of duties designed to keep all vegetation in the public way growing in a desirable manner in accordance with Bureau standards. This involves grass mowing, seeding, sodding, watering, weed control, flower bed and shrub maintenance, litter pick-up and the application of horticultural chemicals.	The Bureau is responsible for maintenance of 455 acres of boulevards and associated parkways. The Bureau plans to maintain special landscaped projects developed by the Department of Public Works, Department of Urban Renewal and other agencies.	87,847
3. Other Tree Maintenance	The application of chemicals to prevent the spread of disease or insect infestation. The application of fertilizer to stimulate the vigor and growth of shade trees. The correction of tree defects attributed to loss of strength because of damage or decay.	The major effort will be the spraying of trees to prevent the spread of the Dutch Elm Disease infestation. The Bureau has not programmed spraying for any other insect infestations in 1975.	837,699
B. City-Owned Facilities and Other Areas	**Landscape maintenance and tree trimming to keep vegetation at city-owned facilities growing in a desirable manner.**	**This involves tree trimming, root feeding, structural repair, grass mowing, seeding, sodding, watering, flowerbed maintenance, shrub maintenance and the application of horticultural chemicals.**	142,002

IV. Emergency Response	The completion of work in response to immediate hazardous situations and the removal of debris resulting from an emergency operation.	Because of the uncertain nature of storms and other emergencies, it is difficult to forecast the amount of this activity required. However, past experience has indicated that this function requires an average of 50,000 man-hours of work per year, and the planned allocation is based on this average.	$376,591
V. General Support			
A. Administration			
1. General	Administration and supervision not identifiable with any specific program element.		467,613
2. Operations	Administration and supervision at the operations level not identifiable with any specific program element.		473,145
B. Training and Safety	Providing safety and operational training for Bureau personnel to assure high levels of performance and adherence to Bureau standards and safety requirements.	The Bureau plans to provide 10,000 man-hours of training for its personnel in 1975.	146,562

The Bureau will provide public speakers for community organizations and will answer all requests by citizens on forestry or horticulture through field inspections and evaluations.	235,352
D. Disposal of Debris and Recovery of Wood Fiber	Providing for disposal of logs, branches and brush from removal and trimming operations. Recovery of wood fiber as part of this process generates revenues for the City.	The planned removal and trimming activities will generate 60,000 tons of recoverable wood fiber in 1975.	471,493
E. Shops, Stores and Facility Maintenance	Maintenance and repair of power saws, hand tools, landscape equipment not identifiable with any particular program element. Maintenance and security of Bureau operational facilities is included.	The Bureau will purchase all necessary repair parts, tools and materials needed to support their 1975 operations. Tribute to Late Judge Earl J. Neal.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council submitted the following proposed resolution:

WHEREAS, Almighty God in His Infinite Wisdom, has called to his eternal reward on December 13, 1974, Earl J. Neal, Judge of the Circuit Court of Cook County; and

WHEREAS, Judge Neal was a native of Chicago, he attended Farren Elementary, Englewood High School, Universities of Chicago, Illinois and Minnesota. He was a graduate of Chicago Law School, class of 1933, and was a member of the Kappa Alpha Psi Fraternity; and

WHEREAS, Judge Neal's career before the bar and on the bench has spanned more than four decades, with his having served as an associate judge of the Circuit Court for the past 11 years, and earlier as a respected attorney on the South Side and later in the Loop; and

WHEREAS, Judge Neal was deeply involved in the life of this community, working with many service organizations including the American, National, Illinois and Cook County Bar Associations, the N.A.A.C.P., and the Y.M.C.A., especially its Washington Park Branch; and

WHEREAS, Judge Neal was known as a thoughtful man of patience and good humor, one who was considerate and fair-minded, and who approached his duties with deep concern and great care; and

WHEREAS, Judge Neal will be remembered for the unassuming and diligent manner in which he efficiently performed his duties as a judge of the Cook County Circuit Court. His work was exemplary of those persons whose day to day painstaking efforts make the wheels of our judicial system turn smoothly; now, therefore,

Be It Resolved, That the Mayor and the members of the City Council of the City of Chicago, in meeting assembled this 20th day of December, A.D. 1974, express their deep sorrow at the passing of Earl J. Neal, and further express their sympathy to his wife, Evelyn, his son, Earl Langdon Neal, Special Assistant Corporation Counsel of the City of Chicago and his grandson, Langdon David Neal; and

Be It Further Resolved, That a suitable copy of this resolution be presented to the family of Earl J. Neal.

Alderman Kelley moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Kelley (seconded by Aldermen Cousins, Langford, Frost, Natarus, Vrdolyak, Evans and Bilandic) the foregoing proposed resolution was *Adopted* unanimously by a rising vote.

The seconding Aldermen all praised the late Judge Neal for the compassion and sympathy he displayed for people in all walks of life. He was noted for having been an outstanding attorney and a Judge who while he may not have been a Solomon, he tried to be one. The Aldermen also mentioned how proud he had been of his son, a Special Assistant Corporation Counsel, and stated that his pride had been well founded. All extended their sympathy to the family.

Honorable Richard J. Daley, Mayor, also addressed the Council saying that he had been very proud to have had a hand in selecting the late Judge as a judicial candidate. He also said that Judge Neal had served with great distinction and had been a staunch advocate for his people. He also praised the Judge's son Earl L. Neal for his assistance with the special problems of the City in his capacity with the Corporation Counsel's office. He too expressed his sympathy to the entire family.

Alderman Cousins requested that a poem written specially for the late Judge Neal be incorporated in the record. The following is said poem.

I Knew This Man

I knew this man, and that quite well,
Knew things of him . . . not time to tell.
I knew his kindness to those in need,
Knew his gentle, genteel breed.

I knew his ready smile, his touch,
His generous sharing that meant so much,
His love of others, . . . deep concern,
All could emulate, and learn
to cultivate and practice well,
As did this friend of whom I tell.

A family man, a children man, a people man,
a Christian man.

He was a judge, a fine one, friend,
And now there's one who judges him.
And I predict the Judge on high,
Will state with studied pride and love,
You've passed my every test, good man,
Come sit on this bench,
With the Father above.

Written with gratitude for
Judge Earl J. Neal
by Mildred D. Johnson.

The following is said ordinance as passed:

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. The Municipal Code of Chicago, Chapter 137-17, is hereby amended by adding a new Section to be known as Section 137-17.1, as follows:

137-17.1. Upon reporting a rape, an attempted rape or other felonious sex crime to the police, the victim will be taken to the nearest hospital designated for the comprehensive emergency treatment of patients as defined in the Illinois Hospital Licensing Act and approved by the Board of Health.

The victim will be taken into the Hospital through an entrance appropriate to the maintenance of privacy.

The victim will receive an immediate preliminary physical examination by the attending physician to identify and treat any emergencies other than the rape, such as fractures, knife wounds, contusions, or lacerations.

The consenting victim will be interviewed by a trained hospital staff member, preferably a female phychiatric social worker, in a private setting. The hospital staff member will evaluate and counsel the victim and advise follow-up care for the victim, either through the receiving hospital or through the appropriate outside agencies.

The hospital staff member, with consent of the victim, will remain with the victim during the preliminary police investigation primarily to provide support to the victim and to also assist the police in obtaining information needed to properly carry out their investigation.

During this period, the name of the victim and the circumstances attendant to the incident will not be publicized by the hospital, the Police Department, or any other agency. The hospital staff member will so inform the victim.

The consenting victim will be examined by a qualified gynecologist who will fill out a prescribed form detailing the time, date, place and findings of the examination, and note the location of any contusions, abrasions, bruises, and lacerations.

With the victim's written consent, a copy of this form will be furnished to the appropriate investigating police officer, the State's Attorney, the venereal disease section of the Chicago Board of Health when appropriate. Within seven days the form will be typewritten, signed by the examining gynecologist and furnished upon request to the aforementioned agencies.

The consenting victim, if not allergic to specific drugs, will be furnished with anti-conception and anti-venereal disease treatment, unless contra-indicated for medical reasons.

The Comprehensive Hospital will accept any alleged victim who appears without police assistance. Such hospitals will continue to notify the Police Department according to Chapter 137-16 of the Municipal Code of Chicago. The hospital will then follow the procedure heretofore enumerated.

SECTION 2. This ordinance will be in force and effect ten days after due passage and publication.

(6) *Anniversary Date and Salary Schedule Advancement Following Salary Adjustment.*

After initial appointment to a classified position under the jurisdiction of the Civil Service Commission or to a position in the exempt offices, the anniversary date for an employee for purposes of advancement within a salary range shall be adjusted to coincide with the date of any action which increases the pay of the employee. Such action may be in the form of pay advancement within a salary range, promotion, reclassification of the position or change of class grade of the position.

(7) *Limitation of Salary Adjustments.*

Personnel actions which result in increase in pay by means of advancement within a salary range, promotion, reclassification of position, or change of class grade or position shall be made as set forth herein, provided that no employee shall receive the benefit of more than two such actions in any calendar year, unless a supplemental action is recommended by the department head and is approved (a) by the President of the Civil Service Commission for positions under its jurisdiction, or (b) by the appointing authority for positions in the exempt offices, and (c) the Budget Director and the Chairman of the Committee on Finance of the City Council.

In cases where the department head intends to withhold a salary increase and where the employee's over-all performance rating is 70 or above, the department head shall communicate in writing at least 15 days prior to the effective date, to the Civil Service Commission the reasons for such proposed action and the Civil Service Commission shall review and approve or disapprove such action in writing.

D. Prevailing Rate Positions

A prevailing rate (PR) position is hereby defined as one for which the rate is established under acceptable evidence of the wage prevailing in industry. Such positions are usually craft, labor or trade positions, and are not paid under the provisions of the Compensation Plan.

In the event that the pay basis for a position is changed from a prevailing rate basis to a salary schedule in a class grade, the incumbent shall receive the lowest rate in the salary schedule that will not result in a decrease in salary. The Compensation Plan provisions shall thereafter govern.

In the event that an employee is appointed from a position paid on a prevailing rate basis to another position classified and paid under the Compensation Plan, such employee shall be given credit for the time served in the former position in determining the salary rate, provided that the duties performed in the new position shall be in the same line and character of work as the duties performed in the former position; further, that any increase in salary shall not exceed 5%, and provided further that the employee shall in no case receive less than the minimum rate of the salary range of the new position. Such request shall be submitted in the appropriate form.

WHEREAS, Child neglect and abuse is a social problem increasingly in need of governmental concern; and

WHEREAS, In Chicago alone, 243 child abuse cases were reported to Juvenile Court authorities in 1974 and research shows that for each case of child abuse actually reported, from 10 to 15 go unreported; and

WHEREAS, Child abuse, like other crimes of violence, can be expected to increase in frequency and possibly in severity during the present economic difficulties; and

WHEREAS, In Chicago we have available Chicago Police Department Youth Division records of all abuse/neglect cases that were processed by the Police and at the state level we have statutory requirements that all abuse or neglect cases must be reported to the Illinois Department of Children and Family Services which keeps a registry of such cases reported; and

WHEREAS, This information could be helpful to all hospitals, police, agencies, and other authorities working on child abuse or neglect cases if such information were readily available 24 hours a day, seven days a week; and

WHEREAS, Investigation shows that frequently, parents "hospital shop" that is, take their abused child to different hospitals after each abuse and claim their child received the injuries in an accidental manner; and

WHEREAS, Knowledge that there has been more than one child abuse incident within the same family might be one determining factor in the decision to remove the child from the home for safe keeping when a new incident of abuse or brutality occurs; and

WHEREAS, A computerized record keeping system would be particularly helpful to doctors who could evaluate a child's history with the help of such a system; and,

WHEREAS, Such information of a prior history of child abuse could help authorities protect a child from returning home with abusive parents, now, therefore,

Be It Resolved, 1. That the Mayor appoint a six-member Task Force to study plans for the establishment of a Chicago Computerized Child Abuse Central Registry to record and disseminate information (only to authorized persons) relating to all incidents of suspected child abuse and neglect on a 24-hour, 365 day a year basis;

2. That the Task Force would establish criteria for hospitals, doctors, teachers, police and all other persons involved in treating or assisting in child abuse cases to report such cases and pertinent details to the child abuse computer bank;

3. That the Task Force would provide adequate safeguards for those reporting child abuse data against any legal responsibilities, and,

WHEREAS, Although the City Council of the City of Chicago represents all the people of the City of Chicago coming as they do from many diverse origins and religious backgrounds, little or no public attention was given to our fellow citizens who celebrated their Eastern Orthodox Christmas on January 7, 1975; and

WHEREAS, With so many of our fellow Chicagoans of Serbian, Ukranian, Russian, Byelorussian and other Eastern origin or ancestry feeling dismayed at the lack of official recognition and concern for their Christmas and New Year's observances, it is important that the City Council of the City of Chicago as the representative of all peoples of our city recognize those holidays so important to the Eastern Orthodox Church now, therefore,

Congratulations Expressed to Signe Carlson Bakeries, Inc. for their Many Years of Dedicated Service to the Residents of Andersonville.

A proposed resolution reading as follows:

WHEREAS, The last day of 1974 marked the end of a beloved Chicago institution in Chicago's Andersonville which had served the people of this city for sixty-one years, as Signe Carlson Bakeries, Inc., of 1701 West Foster Avenue, closed its doors forever; and

WHEREAS, For decades, Chicagoans of all ages enjoyed Swedish delicacies such as pecan crispies, limpa bread, Yul-Kaka and cardamon coffeecakes frequently lining the streets for hours on holidays to obtain their favorite items, with former neighbors having taxis wait while they picked up cinnamon loaf coffeecakes to take back to Florida, and people wrote from as far away as Australia to obtain Carlson recipes; and

WHEREAS, Mr. and Mrs. Seymour Carlson were finally forced by rising costs, lack of skilled help, and their own refusal to compromise their high standards of product quality, to liquidate the business which had been founded by Mrs. Carlson's mother and aunt; and

WHEREAS, The closing of the Carlson Bakery has created a void in the daily life of Andersonville which it served for so many years; now, therefore,

Be It Resolved, That this Council expresses its gratitude to the late Signe Carlson and Seymour Carlson, her son, for the years of dedicated service which they rendered to the people of the City of Chicago, and it does further lament the passing of a great bakery which brought so much quality to the life of the community known as Andersonville, U.S.A.

Be It Ordained by the City Council of the City of Chicago:

Section 1. The Municipal Code of Chicago Chapter 74, Section 74-1 (a) is hereby amended by deleting certain language contained in brackets below and by adding certain language, in Italics below as follows:

"74-1(a) Except as provided in paragraphs (b) and (c), the design, fabrication and erection of structural steel shall be in accordance with the requirements of the following document: *AISC* Specifications for the Design, Fabrication and Erection of Structural Steel for Buildings, AISC [current] *1969* Edition, *as modified by Supplement No. 1, November 1, 1970 and Supplement No. 2, December 8, 1971.*

"(b) Members of structural steel that are exposed to the weather or a corrosive atmosphere shall have a minimum thickness of 0.23" and shall receive another coat of metal protection of another color after erection, except for types of structural steels that have been specifically approved for use under exposure to the weather without metal protection.

"(c) The requirements of the above document do not apply to steel joist construction and members formed of cold formed steel."

Section 2. The Municipal Code of Chicago, Chapter 74, Section 74-2, is hereby amended by deleting certain language, contained in brackets below, and by adding certain language, in Italics below, and a new paragraph to be lettered (e), as follows:

"74-2(a) Except as provided in paragraphs (b), (c), [and] (d), *and (e)* the design, fabrication and erection of cold-formed structural steel members shall be in accordance with the requirements of the following document: Specification for the Design of Cold-Formed Steel Structural Members, AISI [current] *1968* Edition *as modified by Addendum No. 1, November 19, 1970.*

"(b) Cold-formed individual structural members whose thickness is less than 0.125 inches, shall not be used to support more than 200 square feet of roof, floor or wall area.

"(c) Except for steel roofing and siding, cold-formed steel members exposed to the weather or a corrosive atmosphere shall have a minimum thickness of 0.23 inches.

"(d) Members, except for types of steels that have been specifically approved for use under exposure to weather without metal protection, shall be protected by an approved rust inhibitive coating unless embedded in concrete. Members exposed to the weather or a corrosive atmosphere shall be galvanized, or have two coats of a rust inhibitive paint.

"(e) Steel deck construction using composite cold-formed steel deck concrete slabs and non-composite concrete slabs on cold-formed steel decks shall comply with the requirements of Section 74-6 of this Code.

"(1) Composite steel deck construction is defined as a system comprised of conventional or light-weight structural concrete placed permanently over cold-formed steel decking in which the steel deck performs the dual role of acting as a form for the concrete during construction and as positive moment reinforcement for the slab during service."

Section 3. The Municipal Code of Chicago, Chapter 74, is hereby amended by adding a new section to be numbered 74-6, in Italics below, as follows:

"74-6. Steel deck construction, using composite cold formed steel deck concrete slabs and non-composite concrete slabs on cold-formed steel decks shall be as provided in paragraphs (a), (b), (c), (d), and (e).

"(a) Cold-formed steel decks shall conform to the requirements of the following document: Specification for the Design of Cold-Formed Steel Structural Members. AISI 1968 Edition as Modified by Addendum No. 1, November 19, 1970.

"(b) Structural working drawings, presented to Department of Buildings for approval, and erection drawings of the steel deck supplier must contain a note indicating the construction loading assumed and reflect the effects of continuity used in designing the steel deck.

"(1) The steel deck shall be proportioned to withstand the weight of the wet concrete, the weight of the steel deck, and an assumed uniformly distributed construction live load 20 pounds per square foot without causing maximum stresses exceeding 0.6 times the specified minimum yield strength of the steel deck.

"(2) The steel deck shall also be proportioned to withstand the weight of the wet concrete, the weight of the steel deck, and an assumed 200-pound concentrated construction live load for a one-foot width without causing maximum stresses exceeding 0.8 times the specified minimum yield strength of the steel deck.

"(c) Where it is determined that the assumed loading criteria shown on the structural working drawings are to be exceeded, the Structural Engineer and Building Department shall be so notified by the Concrete Contractor. In accordance with Chapter 151 of the Chicago Building Code, it is the responsibility of the Concrete Contractor to provide a properly designed supporting system for carrying the actual construction loads.

"(d) Deflection due to construction loading shall be limited to 1/180 of the actual span during construction but shall not exceed ¾ inches.

"(e) The deck shall have adequate bearing and fastening to supporting members to maintain position of deck during construction.

"(1) Steel decks shall be attached to supporting beams at the ends of the deck and at intermediate supports by welding and/or mechanical fasteners. When decks are thinner than 20 gauge, weld washers shall be used for puddle welds as necessary to obtain sound welds and prevent burns.

"(2) Steel deck distortions and/or deformations caused by construction methods must be repaired by suitable methods to restore section properties, or the metal deck sections must be replaced prior to concreting operations."

Section 4. This ordinance shall be in full force and effect ten (10) days after due passage and publication.
